

UI/UX Designer with an M.S. in Digital Media Design, specializing in end-to-end experience design from user research to visual execution. Adept at translating complex user feedback into intuitive, business-viable design strategies. Experienced in Taiwan–Japan cross-cultural research, usability testing, and user-centered product execution.

Education

- M.S. in Digital Media Design | Tatung University (2024 – 2026)
- Graduate Exchange Student | Kyoto Institute of Technology (2025 – 2026)
- B.S. in Interactive Media Design | Tatung University (2020 – 2024)

Featured Projects

FeetMine | Finalist, Vision Get Wild (VGW) 2024 – Cross-Discipline Category

- **Role:** User Research, Semi-Structured Interviews, AR Flow Planning, Prototyping, Illustration
- **Problem & Solution:** Addressed developmental risks caused by parental misconceptions in shoe sizing by designing a digital service that integrates AR foot measurement with personalized footwear recommendations.
- **Deliverables & Validation:** Conducted in-depth interviews with 1 physical therapist and 7 parents, ran 2 rounds of usability testing to refine camera-guided UI and measurement scaling, effectively minimizing user error. Delivered end-to-end User Flows, Design System, and an interactive Figma prototype.

ILANDGREEN | Finalist & Special Sponsor Award, Taiwan International Student Design Competition (TISDC)

- **Role:** User Research, User Journey Mapping, Wireframing, UI Design, Prototyping, Illustration
- **Insight & Problem:** Research revealed high intent for sustainable travel among Gen Z, yet mainstream platforms focus on generic attractions, lacking avenues for immersive and eco-conscious exploration.
- **Design Solution:** Devised a sensory-matching mechanism pairing ambient soundscapes with off-the-beaten-path destinations. Replaced static list recommendations to guide travelers into local heritage and nature, transforming sustainable travel into personalized, memorable journeys.

Experience

Founder & Designer | NOOOMOOONEY (Original Art & Stationery Brand) Oct 2021 – Present

Founded and operate an independent illustration brand; manage product development, digital illustration, and curated an exhibition booth at the 2024 Taipei Illustration Fair.

Graphic & Visual Designer | JusYoung Integrated Marketing Co., Ltd. May 2024 – Mar 2025

Designed social media marketing assets, print collateral, and short-form video content, communicated directly with clients to ensure agile, on-time delivery.

Project Designer | Chunghwa Telecom Foundation – Community Innovation Design Action Jul 2024 – Oct 2024

Designed the "Walk with Mud" community exploration kit for local brand "Good with Mud," translating rural agricultural heritage in Xizhou, Changhua into interactive cultural assets.

Visual & IP Designer | Department of Media Design, Tatung University May 2023 – Oct 2023

Created the department's official mascot and visual IP system, applied across academic merchandise, promotional materials, and event branding.
